

BASIC WORKSHEET- 3

Grade - I

Sub: EVS Answer Key

Date: 22nd April 2020

I. Match the following.

1. Climbers 

2. Creepers 

3. Shrubs 

4. Herbs 

Activity: Take a mint cutting, Place the sprig in a glass of water, and remove any leaves that fall below the water line. Within a week, small white roots should appear under water. Wait few more days to another week to allow the roots to develop into a decent length.

- Add water to the glass as necessary. Make sure that you change the water every four to five days to prevent rot.
