

Name: _____ Grade: IV Branch: _____ Date: 22/04/20

Subject: Science Key

Topic: Adaptation in Animals

Definition: *The special characteristics that enables animals to be successful in a particular environment.*

E.g.: *Animals*

I Write about the animal given in the picture:

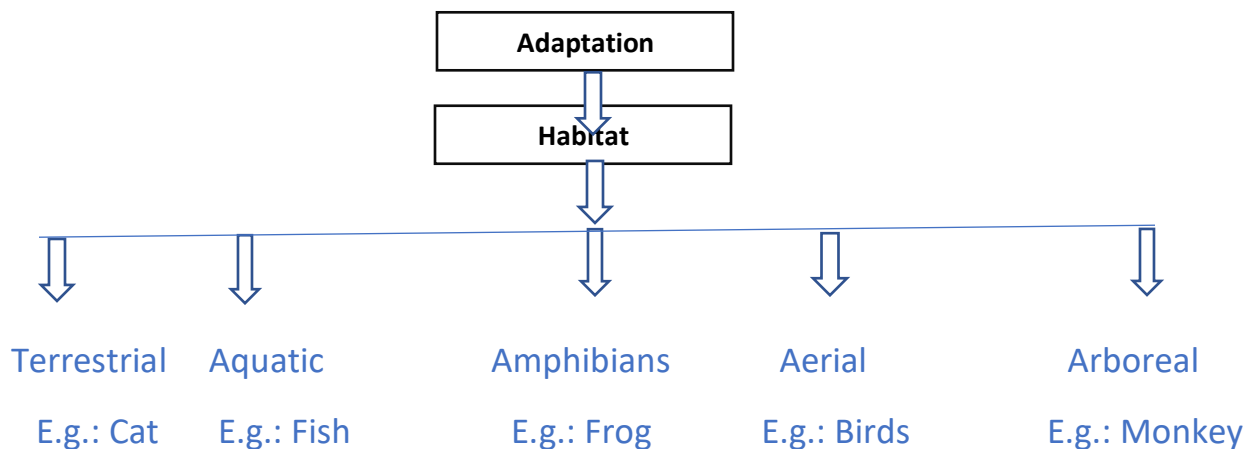

Identify the given picture **Bengal Tiger**

Habitat **Terrestrial**

Adaptation **Less to move, Lungs to breathe, well developed nervous system
And sense organs to sense changes**

Is it Extinct or Endangered? **It is Endangered**

II Build a Concept map on:

III Guess the correct word:

1. Winter Sleep [Hibernation](#)
2. Dodo bird, Sabre toothed cat [Extinct animals](#)
3. I live outside or inside a host for nutrition [Parasite](#)
4. I can live both on land and in water [Amphibian](#)
5. Natural home or environment [Habitat](#)

IV Draw a mind map 'Adaptation for Food':

1. [Carnivores](#)
2. [Herbivores](#)
3. [Omnivores](#)
4. [Scavengers](#)
5. [Parasites](#)
