

Grade- VII

Name of the Student: _____ Grade/Sec: _____ Branch _____

MATHS

1. Line of the symmetry is also known as _____
2. Number of line of symmetry of an isosceles triangle is _____
3. Name of the line of symmetry of a circle is _____
4. A rhombus has _____ line of symmetry
5. Figures/Polygon having one line of symmetry is _____
6. Geometrical figure having no line of symmetry
7. A regular octagon has _____ line of symmetry
8. Two letters in English alphabet having two line of symmetry is also known as _____
9. Figures having no line of symmetry is also known as _____ figures
10. A rectangle having all sides equal is a _____
